- **CEC UCI Exercise (CIO Debrief)**

**ATIP Retrieval A-2022-12627 / SS**

"Phase 1- A list of all quality assurance reports that were published, that were occurring, that are draft and final reports, from IRCC quality assurance exercises and activities (and equivalents) between April 27, 2022 and October 24, 2022.

"Quality Assurance" is the process of auditing the quality requirements and the results from quality control measurements to ensure quality standards and operational definitions are used.

The purpose is to ensure that:

- quality planning activities are conducted and result in the required metrics, tools, standards and processes that will be used by the project to attain its quality objectives;
- work processes are performed efficiently and are documented;
- non-conformances are identified and appropriate corrective action is taken;
- The delivery program deliverables and processes are subject to continuous quality improvement. " **CN**
